

STATE OF NEW YORK
LIQUOR AUTHORITY

(Series 1974)
Divisional Order #672
June 24, 1974

TO: ALL ZONE OFFICES AND LOCAL BOARDS
SUBJECT: CATERING ESTABLISHMENT LICENSE

Recently an application for a new catering license was submitted to the Members of the Authority for a ruling on the following facts:

The applicant had a fully equipped kitchen except for pots and pans. He proposed to use outside professional food caterers who would prepare and deliver the food ready to serve at catered functions in his premises.

The Members of the Authority ruled that it is not necessary that the food served at any function, occasion or event held in the premises be cooked or prepared in the premises, provided that the premises has suitable and adequate facilities for the service of such food and that all monies and charges for the function, occasion or event be paid to the licensed catering establishment.
